

Keyways

Schlage C 300 is 6-5 pin loaded and Schlage C 306 is 6-6 pin loaded
Schlage Everest EVER is a composite that will fit all Everest C keyways

ABUS 888 Keyway

ABUS's new patented semi-restricted keyway designed for the 83 series offers total control and protection. The ABUS 888 keyway gives you key control and protection against unauthorized duplication of keys, offering you increased security. The extra strong key with its high torsion resistance is 4x stronger than most OEM keyways.

Additional Features

KnK Cylinder Compatibility

Most OEM KnK cylinder assemblies will fit into the new 83 Series 2 padlocks. The use of special adapters is required. KnK Adapter Kit Includes: Bible Cover, Schlage® & Primus®, Medeco®, Mul-T-Lock®, Ilco®/Sargent KnK Drivers.

KnK Adapter Kit

Shackle Changing Tools

There are two new shackle changing tools for use with ABUS 83 Series 2. Version 1 is a solid aluminum, steel tip tool designed for use in the workshop environment. Version 2 is an economy version of this tool, designed for use in a van or onsite and when only a smaller number of shackles needs to be changed. A flat bladed screwdriver can no longer be used to remove the shackle, reducing the likelihood of a consumer accidentally doing so.

Easy Shackle Change Feature

The popular "Easy Shackle Change" feature has been expanded to all 83ALs, 83/45, 83KnK/45, 83/50, 83MAR/45, 83WPIB/53, 83WP/53 and most IC padlocks.

Professional Aluminum Shackle Change Tool

3-in-1 Bolt Driver

The 3-in-1 bolt driver setup has been retained for the large steel-bodied padlocks. Changing shackles becomes much simpler using this tools as the spring does not need to be reset. The 3-in-1 bolt driver is used in the 83/55, 83CS/55, 83/80 and 83WP/63 Series 2 as well as all IC padlocks.

3-in-1 Bolt Driver

Symmetrical Z-Bar

A new Series 2 Z-bar has been designed for use in converting from key-retaining to non-key-retaining in seconds. It looks similar to the existing Z-bar, but is symmetrical and has a black dot printed on it, distinguishing it from the old Z-bar which is produced with a red dot. The old S1 Z-bar is shaped differently than the new S2 Z-bar, therefore the two are not interchangeable.

S2 Z-Bar

Shackle Collar and Chain

With an ABUS shackle collar and chain, you can affix any one of our 83 series padlocks to a specific location to help prevent loss and contamination of the padlock. The shackle collar slides up the leg of the shackle and holds the chain attached to the padlock when open. Shackle collars are available for 5/16", 3/8" and 7/16" diameter shackles and can be purchased individually or in a collar kit which includes 6 collars of each size (part #83000K).
