

Mul-T-Lock FireKing® Cylinder

Mul-T-Lock now introduces a solution for the extremely popular FireKing® fire-proof file cabinets. Created in fast response to our customers' requests, the FireKing® file cabinet cylinder is the only high security solution that allows full integration of FireKing® file cabinet locks into new or existing Mul-T-Lock keyed different, keyed alike or master keyed systems.

Until now, consumers were forced to utilize an entirely separate key system in order to secure FireKing® products, but now Mul-T-lock's solution puts you back in control and offers:

- Convenient Mul-T-Lock retrofitting for most popular FireKing® file cabinets
- A comprehensive product, including cylinder, lock pin and nylon encasement
- Mul-T-Lock's high security key design with the capacity to operate our entire product range
- Pick, drill and bump resistance along with superior key control

Applications:

- Ideal for many of the popular FireKing® fire-proof file cabinet locks

Specifications:

- **Materials:** Cylinder - high quality brass with steel latch bolt/ Encasement - tough industrial nylon
- **Mechanism:** Mul-T-Lock's high precision 10 telescopic pin tumbler system
- **Operation:** 90° key rotation by operating key
- **Standards:** Drill and pick resistant
- **Warranties:** Limited lifetime mechanical warranty
