

ULR-TT Series Thumbturn Locks

When You Don't Need A Key

Here are three popular sized thumbturn locks, in bright nickel finish, conveniently packaged with the necessary parts to perform all locking functions!

Thumbturn locks have threaded shells and come staked to a 90° rotation. Just apply the cam accordingly for any clockwise or counter-clockwise rotation. A spur washer is included for wood installation.

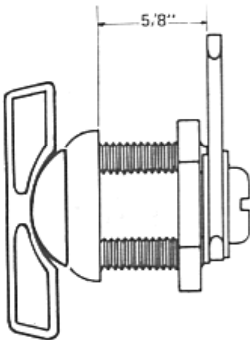

Thumbturn locks are furnished with the following:

Description

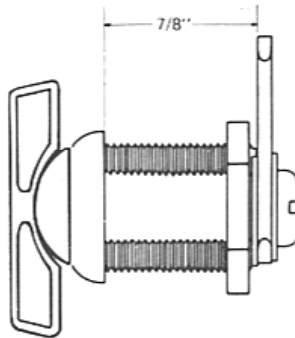

Hex Nut
Sem Screw
Straight Cam 1 1/4"
Offset Cam 1 1/8" x 1/4" offset
